PROGRAM OUTLINE

THEORY

Theory completed between a combination of virtual learning and in-person classes including:

- Introductions and overview
- Mastering the consultation
- Skin histology review
- Protocol including tools and supplies needed
- Common questions and answers
- Treatment plans and combining modalities
- Menu and pricing

PRACTICAL

Hands-on skills are demonstrated and facilitated by our education team on site covering the following

- Develop skills by practicing on fruit or balloons.
- Students will practice on their own arms and legs to work on the correct angle, pressure and technique
- Work on live models to practice the steps and sequence

GUEST SERVICES

Once the student has completed their theory and practical education they will be guided to build their skills through the completion of 10 guest services onsite that are monitored and evaluated by their educator.

EVALUATION

Students will be evaluated on their theoretical and practical knowledge in the area of Chemical Peel services.

Students must obtain a passing grade of 75% on all exams to successfully complete this course.

Models and guest services will be performed under the guidance of the educator and be evaluated to ensure the student has successfully executed the Chemical Peel service.
